August 13th 2:00 – 4:30 pm

**THE BIRDS, THE BEES
AND THE ORCHIDS**

Orchid Pollination

Doug Martin, Ph.D.

American Orchid Society
Webinar

Dr. Doug Martin is past president of the Orchid Society of Greater Kansas City and will do a presentation on orchid pollination biology. Doug originally is from Buffalo NY. He has a PhD in organic chemistry from Clarkson College in Potsdam, NY. He did post-doctorate work at the Yale Medical School and was an Associate Professor in the Department of Therapeutic Radiology. He then moved to Kansas City and was Director of Research for the Brain Tumor Institute of Kansas City at Kansas University Medical School. In 1988 he discovered orchids and in 1992 opened Biosource Orchid Lab to do seed flasking and stem propagation.

Important Dates to remember:

- Meeting Dates for the rest of this year are as follows:
 - Aug 13, Sept 10, Oct 8, Nov 19, and Dec 10.
- Garden Festival: Set up on September 16th, Show is on September 17th.
- Morongo Basin Orchid Festival: Set up September 30, AOS judging on October 1, clean up and take down display October 2nd.
- Orchid Show at the Huntington Library, Art Museum and Botanical Gardens. October 14-16.

GARDEN FESTIVAL:

Calling all members to show off your Orchids at the Garden Festival, September 17th. No Orchids blooming, no problem, bring your cut flowers, arboreals, succulents, cactus, and vegetables to be judged. While at the festival you can volunteer to help, our society is a sponsor of this event and we can always use more helpers. This is an excellent way for our society to let the public know who we are and what we do. Come and have fun. Invite your friends to enter and join the fun.

NEED A PICK ME UP CARD?

If you or someone in our society needs a pick me up card, please let Janet Parks know as she is now our Sunshine person. The society wants all our members and friends that we care and are concerned about to know that we are thinking of them. Janet's email is jntprks@gmail.com and her phone number is 951-315-8273.

ORCHID TIP – JULY AND AUGUST

Cattleyas: this month requires careful attention to their watering and fertilizing needs owing to characteristically high temperatures. Evaporative cooling is a must in areas of the country where it is effective. Where it is not (the more humid regions), care needs to be paid to proper venting to keep temperatures within reason. Bottom vents in conjunction with top vents provide enough rising airflow to help keep plants cool. Increased air flow lessens humidity and dries plants out more quickly, necessitating more frequent damping down and watering, in areas where high humidity is not a problem. Higher light and heat indicate more fertilizer. The growths your plants are making now are the source of this autumn, winter, and spring's blooms, so applying adequate fertilizer this month is the best way to ensure future blooms. Higher temperatures and humidity may also lead to fungal or bacterial rot problems, so it is important to closely observe your plants for any early indication of problems. Pests are also at a high point this month for the same reason

If you have an Orchid Tip that would help new members please consider sharing. Send your tip to Ronald Lang rflangx25@gmail.com. This is a new section of our newsletter.

About Our Society...

The Riverside-San Bernardino Counties Orchid Society (RSBCOS) was founded to further the understanding and appreciation of orchids by its members locally and to aid in a worldwide effort to improve man's knowledge of them.
